2019 – 17.0% , 2018 – 18.2%

- The Group (Kenya Bank, South Sudan branch, SBG Securities and Stanbic Insurance Agency Limited) reported a profit after tax of KES 6.4b

- Total revenue grew by 12% driven by balance sheet growth, growth in market share in the brokerage business, increase in transactional fees and successful closure of key deals in Investment Banking
- The South Sudan business continued to be profitable despite the challenging operating environment

The growth was partly offset by;

- Increase in costs arising from reorganising the business and one off guarantee payment

Balance sheet growth especially in PBB drives increase in net interest income

NII breakdown by business unit (KES m)

- Average balance sheet growth in all business units contributed to increased NII
- Personal and Business Banking registered improved margins despite rate cuts during the year. This is largely on account of decrease in cost of funds

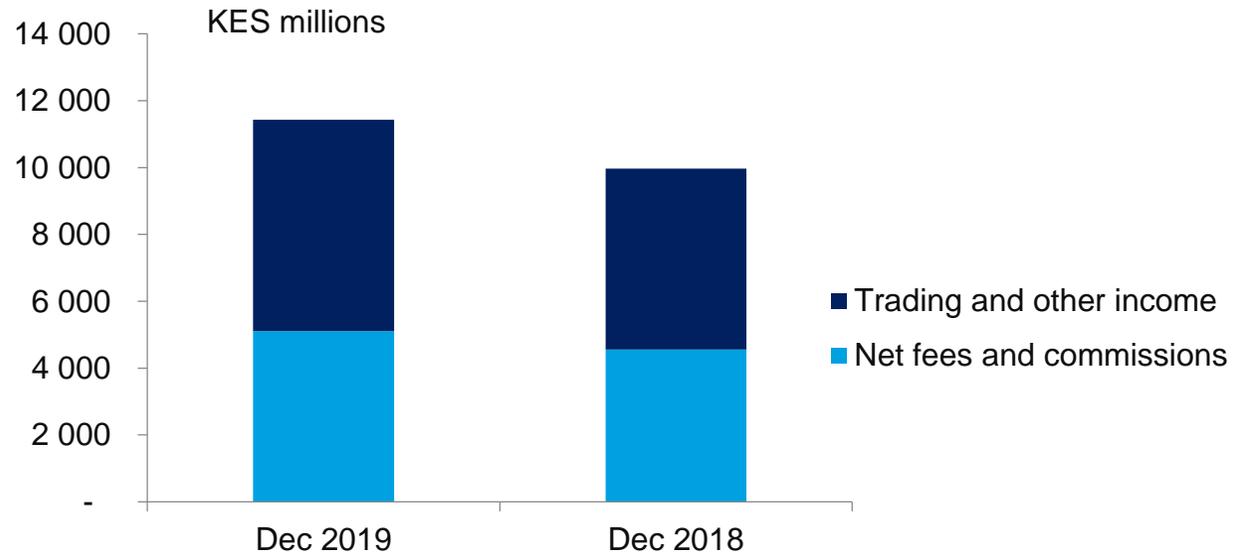

NII breakdown by currency (KES m)

- At a currency level Net Interest Margin dropped for both local currency and foreign currency. This is attributed to CBR rate cuts during the year and decrease in pricing for foreign currency loans for some Key CIB clients
- Balance sheet growth offset the decreases in margins

PBB – Personal and Business Banking, NII – Net Interest Income

Non-interest revenue

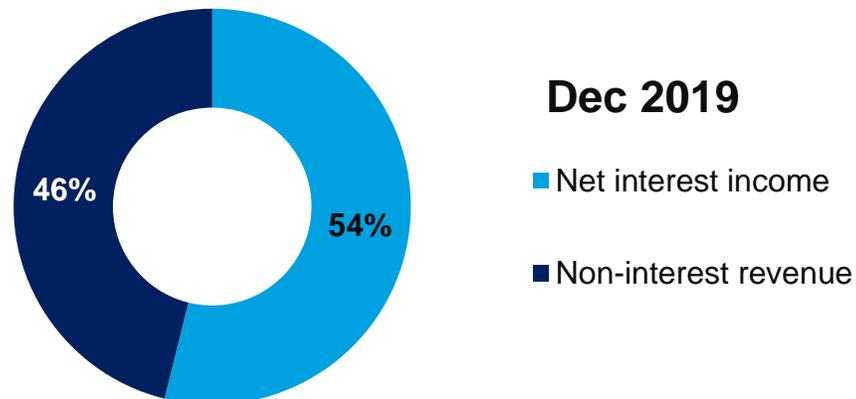

Net fees and commission income

Increase in net fees and commission income explained by:

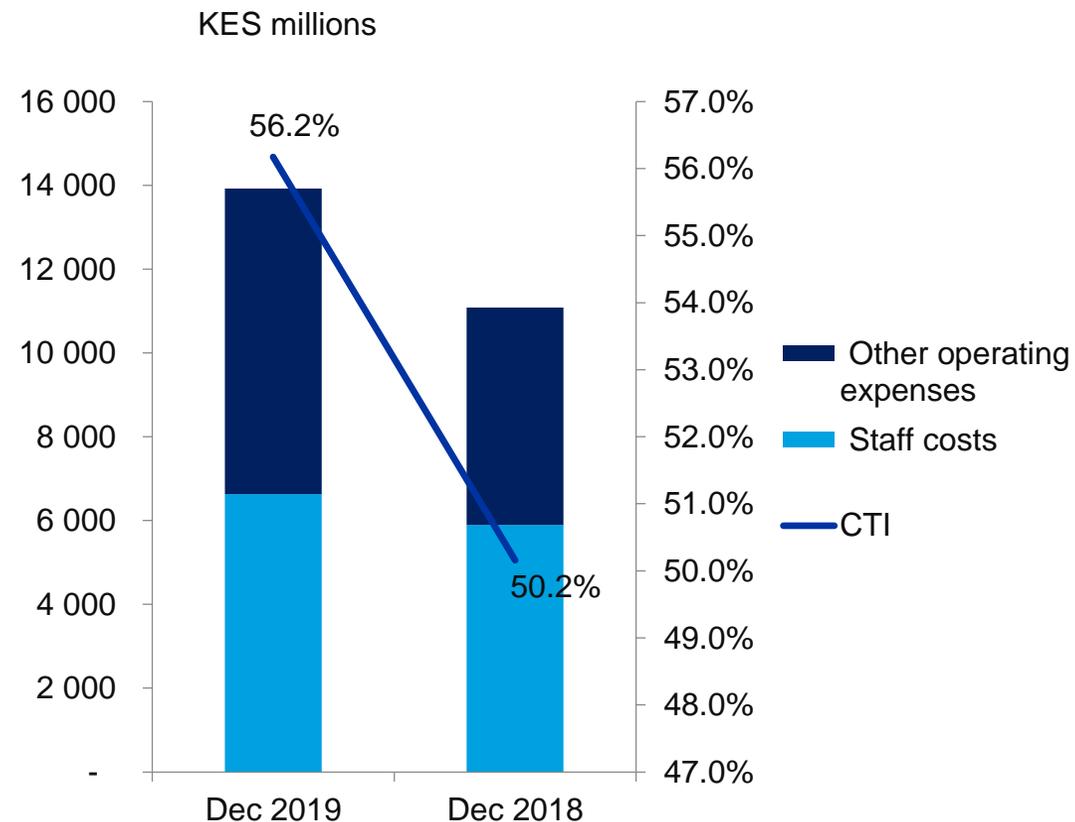

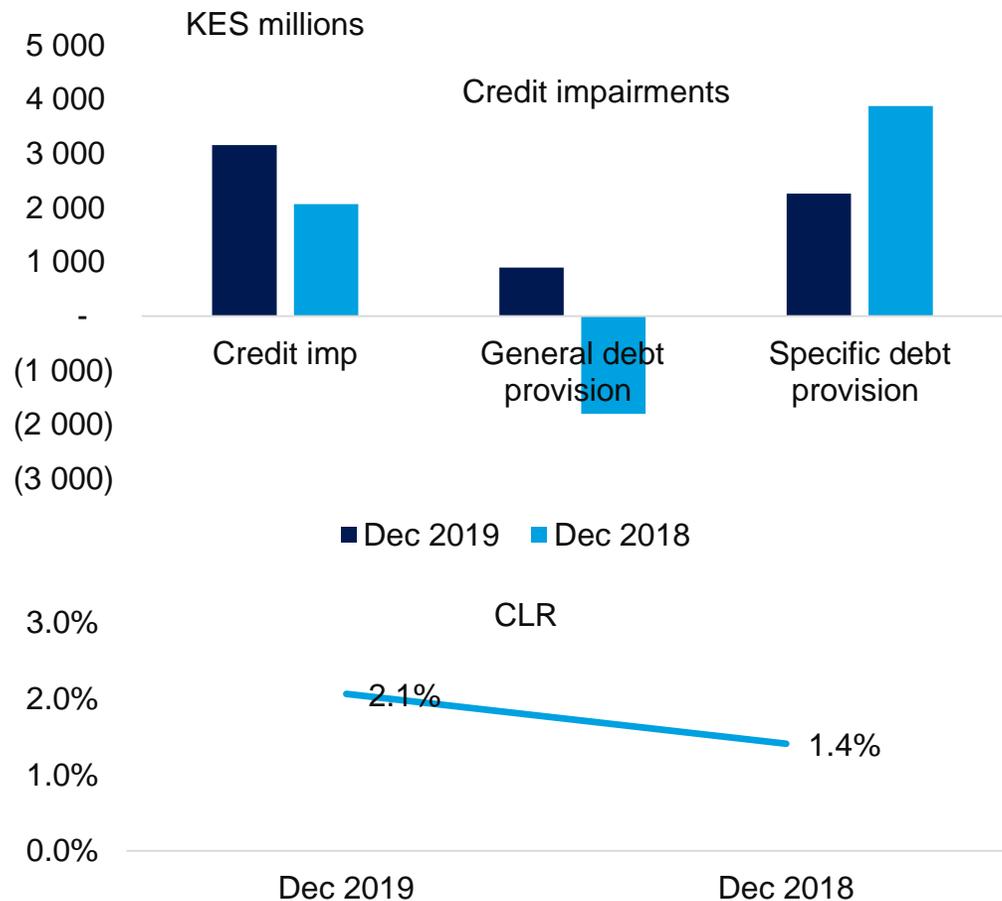

- Key investment banking deals closed within the year
- Continued growth in electronic banking revenues
- Growth in market share in SBG Securities

Trading revenue and other income

- Growth in trading income due to increase in foreign exchange margins by 16%
- Higher other income as a result of gains from disposal of financial investments

Credit impairment and operating expenses

- Impairment charges have increased year on year due to:
 - Additional provisions on pre 2019 NPL book
 - Growth in the performing book

- Increase in cost to income due to;
 - One off costs arising from reorganizing the business
 - One off guarantee payment

Right of use assets

- ❑ A single lessee model where a right of use asset together with a liability for future payments is to be recognized for all leases with a term of more than 12 months, unless the underlying asset is of low value

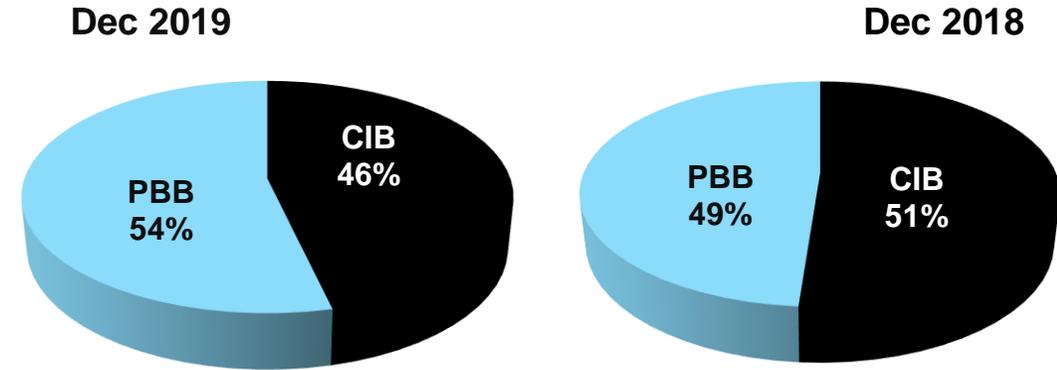

Stanbic perspective

- ❑ The group leases property for use as branches, offices, ATMs and parking spaces
- ❑ The leases of offices and ATM spaces are typically for periods above 2 years, with options to renew
- ❑ None of the leases contains any restrictions or covenants other than the protective rights of the lessor

Letters of credit	6 895	2 767	149
Guarantees	59 472	71 532	(17)

- ❑ Higher non interest revenue due to fees from key deals in Investment Banking, increased client flow and gains from disposal of financial investments
- ❑ Credit loss ratio was higher in 2019 as a result of increased provision for non performing loans
- ❑ Decline in customer loans and advances was mainly driven by decreased working capital needs by customers at the end of the year
- ❑ Decrease in customer deposits largely due to movement of funds by State Owned Enterprises

CIB strategic priorities

We want to partner with our clients to unlock their dreams

We aspire to be the undisputed financial services provider of choice

We want to deliver value to our clients through our deep sector expertise by focusing on:

Client centricity

We want to do valuable things for our clients

Guarantees	2 541	3 313	(23)

- Strong balance sheet growth on our focus segments driven by acquisition of new to bank customers
- Increase in net interest income explained by balance sheet growth and improved margins as a result of reduced cost of funding due to accelerated growth in local currency current accounts
- Growth in non interest revenue mainly driven by growth in active customers and increased transactions on our digital channels, card and in the forex trading

PBB strategic priorities

- ❑ Scale up customer acquisition through targeted ecosystems
- ❑ Delta's in Enterprise (SME), Agriculture and Public Sector
- ❑ Enabled through digital transformation
- ❑ Enhanced risk awareness

Profit before tax	178	114	56
Tax	(56)	(37)	(51)
Profit after tax	122	77	58

- 18% year-on-year revenue growth driven by:
 - An increase in equities market share to 17.4% compared to 16.7% in 2018, which largely offset the 12.4% reduction in equity market activity at the NSE
 - Significant growth in 'other revenue' due to advisory fees relating to capital markets mandates
- Overall, growth in profit before tax was also driven by gains from continued improvements in operating efficiencies

Solid net income growth and ROE expansion over the last three years
